

HAPPY  
NEW YEAR

January 22, 2023 at 10:00 AM

I'm as soft and transparent as a wonton  
dumpling

January 10, 2023 at 12:57 PM

I'm a horrible girlfriend I'm a horrible girl

January 10, 2023 at 9:23 PM

I pray for your liver

January 10, 2023 at 1:44 AM

The cycles have been very evident

You're always driving me home in January

January  
I texted you I'm thinking  
of you all the time, and  
my friend sat on my  
phone to stop me from  
saying more

I had a dream last night that I tried Diet Coke for the first time and didn't like it

I had a dream I had a foursome but we had to stop because one person had to pee

I had a dream I was napping in a king sized bed with my friends, that was plopped in the middle of a forest next to a lake with white sheets and a big white comforter

I'm the big kid I always wanted to be

Kind and hot and wearing my moms leather jacket at the airport

At the plum ripe age of 22 I had my first burger from McDonald's and I think I get I ow why capitalism is a thing

## February

When you took me to Miami you told me not to tell people I was unemployed lol.

## March

I kissed a third person at skylark and finally got the job.

The vibes have been really fascinating recently

April  
Thank you for  
bringing me  
flowers

# May

I'm on new meds and my skin purges. Month of angry skin but I go on the dates anyways. I remember about sex.

I'm doing my makeup, my dad is reading about the mortality rates of serfs in the 19th century

I put blush on my nose and asked my dad if my nose was too pink. He said, well it's pink, but so be it.

Lmao the thing that I thought I wanted has  
come to fruition and turns out I need so  
much more 💖

< You insist on giving me very little and I'm too surprised to ask for more<3

I repeat it like a  
prayer, I do not want  
what doesn't want  
me.

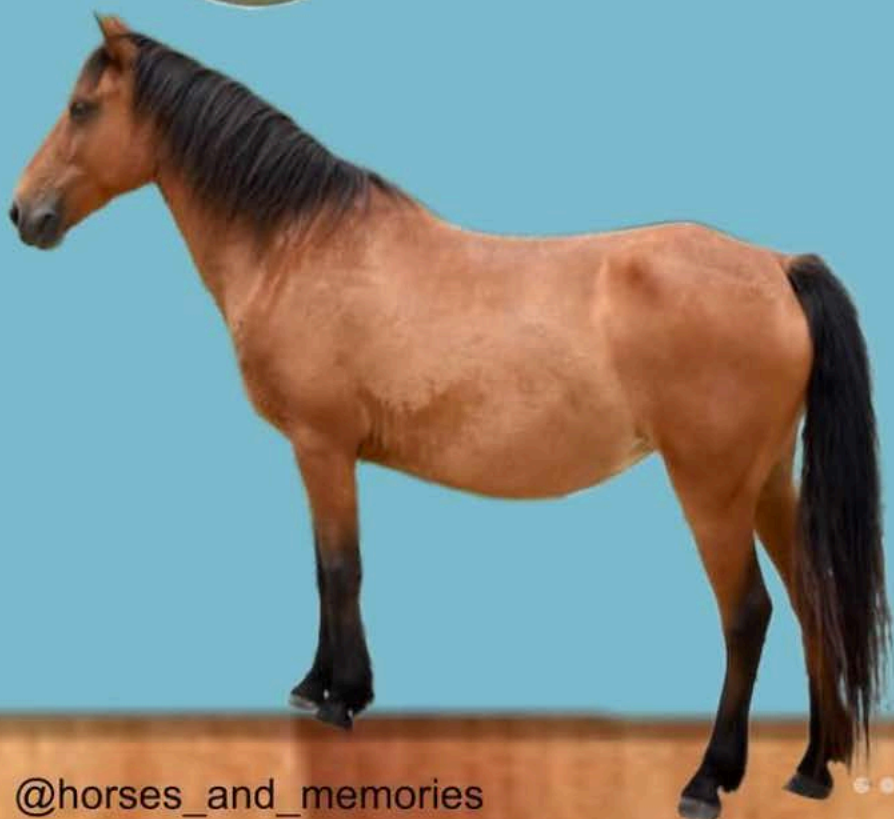

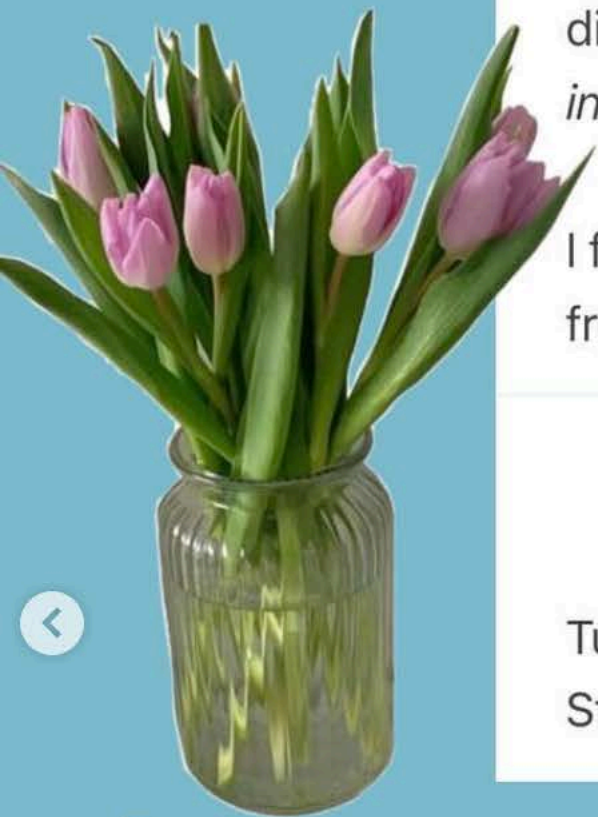

September 9, 2023 at 3:52 PM

Sometimes when I take a particularly large  
shit I wipe and turn around in awe (horror,  
disgust) thinking, *I can't believe this was  
inside me!*

I feel kinda the same way reading my diary  
from a couple months ago

September 10, 2023 at 10:21 PM

Turns out that trauma?  
Still unresolved 🤔👉

September  
My friends move me into  
the apartment. I buy 3  
slices of pizza and a can  
of Pepsi, I eat sitting on  
the floor of my bedroom  
and cry out of relief

# Where are the good rodeos?

Tell me tell me!

October  
It is getting colder and I  
am getting lonely

November 24, 2023 at 2:15 PM

I have to stop scrolling mindlessly. And must go back to my roots: watching long documentary style YouTube videos about remote villages.

November 6, 2023 at 7:23 AM

I have nothing factual to say I just keep making guesses about myself and saying them aloud

November 21, 2023 at 10:12 PM

I'm not sure who the voice in my head is. I just saw a man walk by with his dog, and the dog had an American flag collar, and loudly in my head I announced: now that's an all-American dog!

Who would say such a thing?

November 8, 2023 at 12:48 AM

I have no tricks left up my sleeves  
Take me out to dinner

# November

# I go absolutely insane.

December

So the thing about my jugular is that it's extremely soft and tender. What you would need to do is say three sweet things to me and then gently place my neck in your jaws.

And then when I'm not looking, theoretically one would only have to bite down, ever so gently, and that's all it would take. Yea, so that's why it's so important to me that I can trust you, because I'm fragile like that and I know it.

Oh yea cool thx for letting me know
