

...it looks like the edge of the
universe

yes!

Yea.

lol doesn't it kind of
look like the edge
of the world?

A carousel horse, painted in a realistic style, is shown in profile, facing right. It is positioned on a wooden platform that recedes into the distance. The background is a dark, starry night sky. A small, glowing lantern is visible on the left side of the frame. The overall scene is surreal and whimsical.

I dare you to touch the edge.

lol
