when I was 17 I wanted a baby so bad. I would have dreams about it. Last night i had a dream I hooked up w Billie eilish after she pursued me at a party at her house but she was really mean about it and like, told me she doesn't even like girls and just wanted to try it afterwards. And she wouldn't let me use her shower because she said it was too intimate and I had to leave.

I would always let u use my shower.

well like ok maybe I'm not romanticizing him. I was there too! And I was sexy and sweet and that's fun to look back on. I was also so stupid lol but now I know better and I mean it's hard to block him out but, I was there too.
